Subject: Oak Ridge bomb plant

To whom it may concern:  
I'm writing this message to voice my opposition to the proposed National Security Complex. If there is a resulting bomb plant, I'm opposed to that as well.  
We have enough bombs already to make the rubble bounce many times. I think this country should spend more time waging peace--instead of preparing for war.  
I am (as well as others) in full opposition to the proposed plan.  
Further escalation of such a plan will bring further protest.  
Thank you for your time and consideration.

### Comment No. 1

Issue Code: 16

Comment noted. While future arms control reductions may change requirements for maintaining the nuclear weapons stockpile, DOE is responsible for meeting the current requirements set forth by the President and Congress. The need for nuclear weapons and the issue of how many nuclear weapons the United States maintains in its arsenal are beyond the scope of the Y-12 SWEIS.
